

# IMRON<sup>®</sup> ELITE HDC HEAVY-DUTY COATING

# IMRON® ELITE HDC HEAVY-DUTY COATING

Imron®Elite HDC is a compliant, high-solids, 2K, solid colour topcoat. Part of the Imron®Fleet Line VOC-compliant range from Cromax®, Imron®Elite HDC delivers robust performance on large-area CV applications as well as on more complex industrial structures. With its patented “star” polymer technology, Imron®Elite HDC works in conjunction with concentrated PowerTints®and meets many topcoat application requirements.

Accelerate topcoat application and achieve multi-toning with the addition of ET740 Accelerator. ET751 Special Application Thinner Standard allows for electrostatic and airless applications. Imron®Elite HDC is perfect for all OEM finishes, Imron®Fleet Line primer surfacers or Imron®Fleet Line surfacers.

- |    |                |   |
|----|----------------|---|
| 01 | <b>FEATURE</b> | Robust performance  |
|    | <b>BENEFIT</b> | Excellent high-gloss finish with good hiding  |
| 02 | <b>FEATURE</b> | Large application window  |
|    | <b>BENEFIT</b> | Extremely good sagging resistance through rheology control  |
| 03 | <b>FEATURE</b> | Multiple application options  |
|    | <b>BENEFIT</b> | Electrostatic and airless application   |
| 04 | <b>FEATURE</b> | Suitable for spot, panel and overall repairs  |
|    | <b>BENEFIT</b> | Flexibility in use  |
| 05 | <b>FEATURE</b> | Colour retrieval with Imron®Fleet Line – applied in Imron®Elite quality - colour reading using Acquire® Spectrophotometer |
|    | <b>BENEFIT</b> | Fast colour availability provides accurate colour match   |
