

B73 and B730

Truck Clamping and Support System

CAR-O-LINER[®]

Your safety - our mission

Hold on to more business

The Car-O-Liner Truck Clamping and Support Systems allows you to anchor and repair every type of compact truck, pick-up truck, van and sport utility vehicle on the road – with holding power that far exceeds pulling requirements. They are ideal companions to Car-O-Liner's Quick 42®, BenchRack® and Mark 6® systems

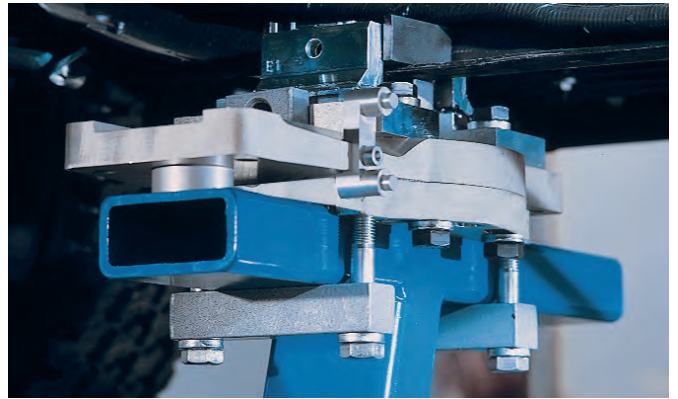

and have set new industry standards for full-frame repairs.

We offer two variations of our B-series of truck clamping: B73 Basic Truck Clamping and B730 Truck Clamping. One is sure to meet your workshop's needs!

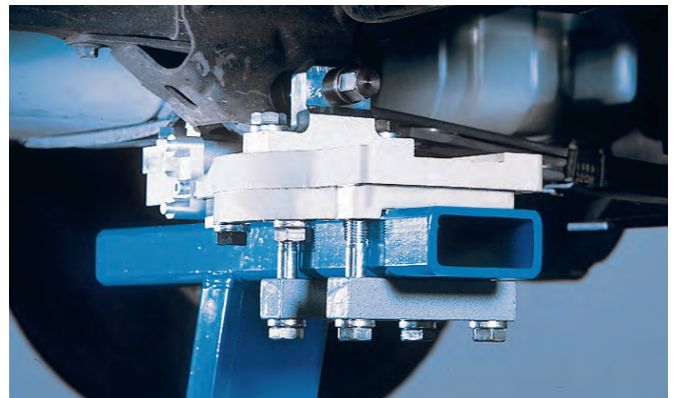

Save time - make money!

Features and Benefits

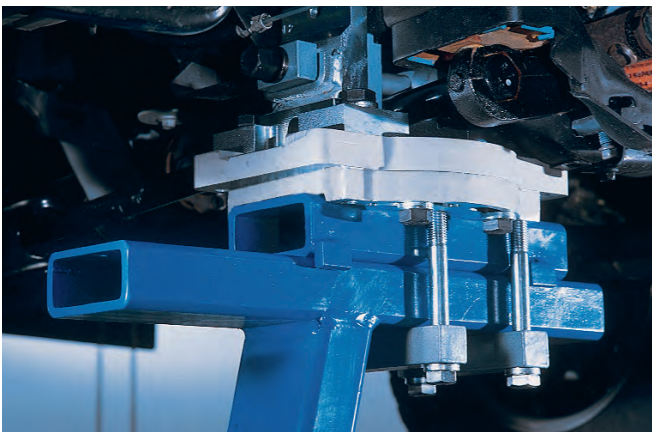

- Fast setup and tear-down time
- User-friendly and easy to learn
- Reduces pulling and measuring time - increasing your profits
- Versatile - Can be used on virtually all full-frame cars and trucks
- Easy access under the vehicle
- Less chance of frame damage due to improper hook-ups - avoids costly rework
- Isolates frame from suspension for easier diagnosis

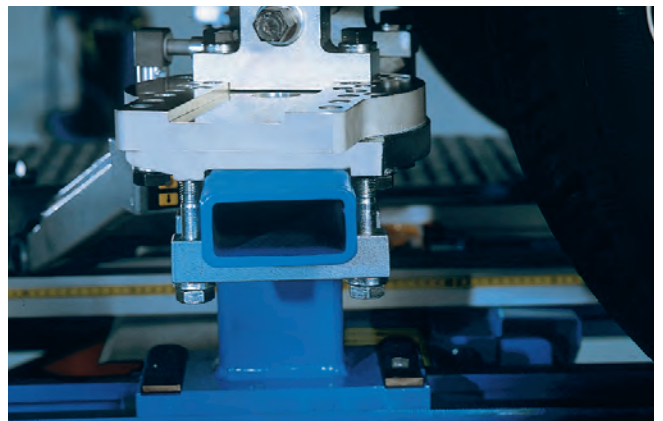

Vice-like clamp holds all frames effortlessly and precisely without collapsing the rails

B260 clamp holds tightly to the spring shackle without removing the spring. Saves time and expense

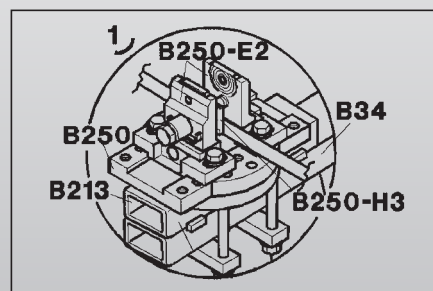

Clamps easily adapt to hard to reach areas and obstructions when mounted on the B34 bench mounting

Clamps rotate to accommodate new angled frame designs

B73 Truck Clamping and Holding System

Line drawings on data sheets show exactly how and where to mount the clamps
