The Lowbake Full Down Draught Truck and Bus Spraybooth is the first choice for high quality and efficient truck and bus refinishing. The Full Down Draught Truck and Bus Spraybooth has multiple fans and heaters mounted along either side of the cabin for even airflow. Each Lowbake Truck & Bus Spraybooth is engineered for quality painting with maximum safety.

Alternative designs with roof mounted equipment are available; all equipment, platforms and ladders are designed as per AS1657 of the Australian Standard. The Truck & Bus Spraybooth has heavy duty flooring with easy access to all filters and lights.

### Truck and Bus Spraybooth Technical Data

Power Supply	Frequency	Current	Air Volume	Gas Volume	Gas Pressure	Noise	Floor Load	Packing
415 volts	Technical specifications supplied on design
